

Rasch has been marketing amalgam separation systems worldwide since 1987. The design was initially developed for the European market, and has been refined over time to provide trouble-free world-wide operation. Other models, each using the same Rasch amalgam separator canister, are offered to facilitate specific types of installations.

AB Dental Trends Amalgam Separation, providing the broadest coverage and support for North America.

Canister life 18 months - under \$25 per month!

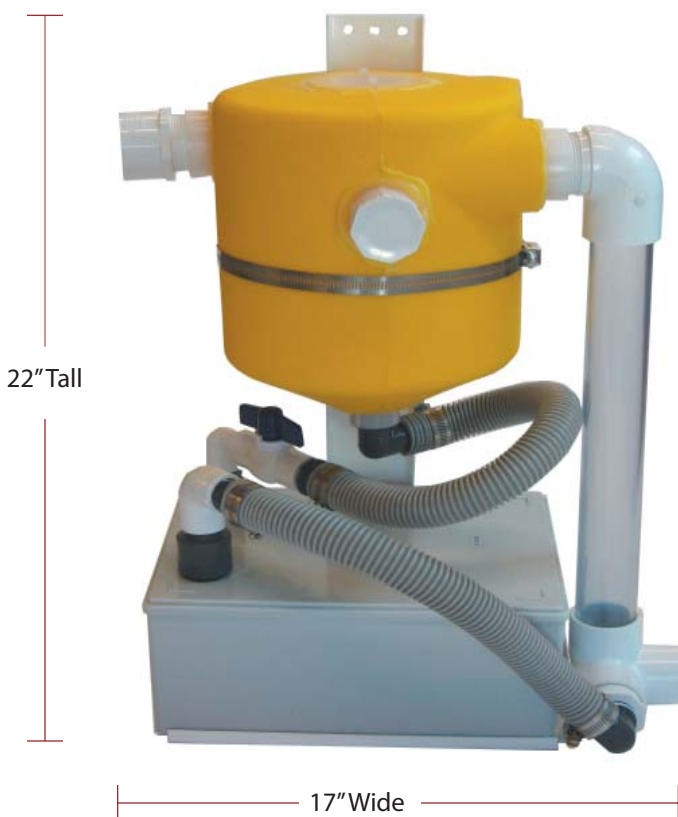

890-1500 Amalgam Separation unit, with the longest lasting canister in the industry.

EASY INSTALLATION

- In-line installation gets you up and running quickly
- Ideal for large or small clinics
- Floor or wall mount
- Small footprint for tight spaces
- Optional overflow alarm

Less frequent canister changes than the competition!

- Flo-thru design flushes out hygiene materials and organic debris
- Cuspidors easily handled
- Highest flow rate, 4 liters (1 gal) per minute
- Recycling and return shipping included
- Certified to exceed the ISO 11143:2008 protocol
- 5 year warranty

- Quick canister replacement
- Shut-off valve keeps you clean and dry while changing canisters

- Large 1-1/2" ports ensure restriction-free flow. Adaptors for other sizes included
- Durable molded Polymer withstands impact and extreme temperature fluctuations

Will never reduce suction, even if filled to over-capacity!
