

THE FIELD PROVEN RASCH AMALGAM SEPARATOR

Rasch has been marketing amalgam separation systems worldwide since 1987. The design was initially developed for the European market, and has been refined over time to provide trouble-free world-wide operation. Four models, each using the same Rasch amalgam separator canister, are offered to facilitate specific types of installations.

AB Dental Trends Amalgam Separation, providing the broadest coverage and support for North America.

COMMON FEATURES OF ALL MODELS

- Certified to exceed the ISO 11143 test over 99%
- High max thru-put of 4 liters per minute
- Cuspids easily handled
- Longest canister life, lowest monthly cost
- Flo-thru design flushes out hygiene materials and organic debris
- Small footprint for tight spaces
- Quick change of canisters
- Recycling & return shipping is included
- 5 year warranty

890-1500

890-1500

IN-LINE VERSION GETS YOU THERE QUICKLY

- Organic materials flow thru, will never reduce suction!
- Flexible installation for all suction lines
- Floor or wall mount
- Includes rack and buffer tank
- Integrated port for optional overflow alarm (890-5500)

890-7000

890-7000*

NEW PORTABLE VERSION

- Unique system for hospitals doing occasional dental work, remote clinics operated in multi-use facilities, and portable clinics
- Store with portable evacuation pump under the counter or in cabinet
- At the end of operatory day, lay the drain hose into the sink, open two valves, pour your waste collector jar into the top funnel opening, quick-flush and prepare for storage.

890-6000

890-6000

DRY PUMP OUTLET SYSTEM

- Installed in small clinics and major hospitals around the world
- Attaches to the outlet of the pump collector tank
- Large facilities may use a simple manifold for the desired number of canisters to accommodate multiple doctors and higher flow rates

ADDITIONAL ITEMS
